ABOUT

Full Stack Developer with 5+ years of rich professional experience of building and delivering highly scalable, enterprise grade software products. I hold a Bachelor's degree in Computer Sciences from the Punjab University College of Information Technology, Lahore, Pakistan

WORK EXPERIENCE

Full Stack Software Engineer, Agoda

Dec 2021 - Present ⌚ 6 months

Leading several teams, working on solutions based upon distributed computing to make the e-commerce scene under the global travel space alive

- Working with teams to migrate long-running legacy systems to a newer and a better stack
- Keeping track of the learning abilities of my team so that they can progress in their respective careers and interests
- Having 1:1s to shape up the team culture and align them with essential matters at the organization

- Build a mindset and culture of quality first; Owning our stuff and converting them to quality artefacts and systems
- Help the organization envision what moving away from legacy could mean and preach the benefits within the team(s)
- Help the team understand Agility at work and take them through ceremonies; This helps the team give their best following sprints
- Making an effort around organizational values, so it lives within the team and work we do.

Senior Software Engineer, Strategic System International

Nov 2019 - Dec 2021 🕒 2 years 1 month

Design and developed multiple major modules and provide technical support to web application as well mobile application. My responsibilities include:

- Building micro services oriented systems that enable integration with various external systems.
- Working in an agile, scrum environment using .NET stack to design and build highly optimized solutions to be deployed at a global scale.
- Optimizing and refactoring existing modules to accommodate new functionality and enhance performance and maintainability.
- Design and develop timesheets management module based on types of systems. User can track workings hours and working experience with different clients. User can upload paper timesheets as well.
- Implementation of Elastic search to enhance the performance and visualize the data.
- Provide technical to mobile application
- Provide technical support and consultancy to other projects as well

Software Engineer, CureMD

Sep 2017 - Nov 2019 🕒 2 years 1 month

Developed multiple major projects, as a full stack .NET developer as well as a software architect. My responsibilities include:

- Building highly scalable and robust, service-oriented systems that enable integration of our flagship product with various external information exchange partners.
- Working in an agile, scrum environment using .NET stack to design and build highly optimized solutions to be deployed at a global scale.
- Providing technical and client support to various deployed products. Co-ordinate and plan inter and intra team activities.
- Restructure and refactor modules of existing products to accommodate new functionality and enhance performance and maintainability.

Software Engineer, Logix Infinity

Jun 2016 - Sep 2017 🕒 1 year 3 months

Worked as a software developer, specializing in web and desktop application development, mainly using the .NET stack along with other web technologies (Angular, Ionic and JavaScript). It gave me a chance to work on an array of diverse projects, offering me a great learning experience and exposure. I've developed web-based software using ASP.NET (MVC, WEB API, .NetCore), Angular/Ionic and SQLServer.

SKILLS

Software Architecture (advanced): Design-patterns, Distributed systems, Scalability, Maintainability.

Problem Solving (advanced): Competitive Programming, Abstract.

Web Development (expert): HTML, Javascript.

Software Development (proficient): Sustainability, Portability, Scalability, Reasonability.

Draft documentation (proficient): docsify, Github, MARP, Joplin, MermaidJS, FormsIO.

Communication (competent): face-2-face, emails, presentations, conference, buy-in talks, negotiations, layman conversions, 1:1s.

EDUCATION

Computer Science, Bachelor, FAST - NUCES

Jun 2006 - Jul 2010

Digital Logic Design

Assembly Language

Data Structures

Design Patterns

Web Programming

Compiler Construction

Concurrent and Distributed Systems

High Performance Computing

Database Design

AWARDS

IASA IT Architecture Core (ITAC) – CITAF Certification, Iasa Global

Awarded on: May 2015

Anchors to the beginning of Architect position and responsibilities

Won the GIKI SOFTCOM 08 (Programming Competition), GIKI University Pakistan

Awarded on: Apr 2008

A speed programming competition of national level

REFERENCES

Heinrich Rust

Amir is surely missed by his team/peers and I think any company would find great benefit with the addition of Amir to their leadership and technical team. Wish you all the best Amir and hope our paths cross again.

Paul Fitzgerald

As a colleague Amir is friendly, personable, has an easy manner and great sense of humour. A clear communicator with a voice for radio, Amir is wise head on young shoulders.
