### ABOUT

Full Stack Developer with 5+ years of rich professional experience of building and delivering highly scalable, enterprise grade software products. I hold a Bachelor's degree in Computer Sciences from the Punjab University College of Information Technology, Lahore, Pakistan

### WORK EXPERIENCE

#### Full Stack Software Engineer, Agoda

Dec 2021 - Present ⌚ 6 months

Leading several teams, working on solutions based upon distributed computing to make the e-commerce scene under the global travel space alive

- Working with teams to migrate long-running legacy systems to a newer and a better stack
- Keeping track of the learning abilities of my team so that they can progress in their respective careers and interests
- Having 1:1s to shape up the team culture and align them with essential matters at the organization

- Build a mindset and culture of quality first; Owning our stuff and converting them to quality artefacts and systems
- Help the organization envision what moving away from legacy could mean and preach the benefits within the team(s)
- Help the team understand Agility at work and take them through ceremonies; This helps the team give their best following sprints
- Making an effort around organizational values, so it lives within the team and work we do.

### **Senior Software Engineer, Strategic System International**

Nov 2019 - Dec 2021 🕒 2 years 1 month

Design and developed multiple major modules and provide technical support to web application as well mobile application. My responsibilities include:

- Building micro services oriented systems that enable integration with various external systems.
- Working in an agile, scrum environment using .NET stack to design and build highly optimized solutions to be deployed at a global scale.
- Optimizing and refactoring existing modules to accommodate new functionality and enhance performance and maintainability.
- Design and develop timesheets management module based on types of systems. User can track workings hours and working experience with different clients. User can upload paper timesheets as well.
- Implementation of Elastic search to enhance the performance and visualize the data.
- Provide technical to mobile application
- Provide technical support and consultancy to other projects as well

### **Software Engineer, CureMD**

Sep 2017 - Nov 2019 🕒 2 years 1 month

Developed multiple major projects, as a full stack .NET developer as well as a software architect. My responsibilities include:

- Building highly scalable and robust, service-oriented systems that enable integration of our flagship product with various external information exchange partners.
- Working in an agile, scrum environment using .NET stack to design and build highly optimized solutions to be deployed at a global scale.
- Providing technical and client support to various deployed products. Co-ordinate and plan inter and intra team activities.
- Restructure and refactor modules of existing products to accommodate new functionality and enhance performance and maintainability.

### **Software Engineer, Logix Infinity**

Jun 2016 - Sep 2017 🕒 1 year 3 months

Worked as a software developer, specializing in web and desktop application development, mainly using the .NET stack along with other web technologies (Angular, Ionic and JavaScript). It gave me a chance to work on an array of diverse projects, offering me a great learning experience and exposure. I've developed web-based software using ASP.NET (MVC, WEB API, .NetCore), Angular/Ionic and SQLServer.

## SKILLS

---

**Software Architecture (advanced):** Design-patterns, Distributed systems, Scalability, Maintainability.

**Programming Languages (advanced):** C#, C++.

**Web Engineering (expert):** Software Architecture, Development and Troubleshooting, Project Management & Coordination.

**Software Development (proficient):** Sustainability, Portability, Scalability, Reasonability.

**Web Programming (proficient):** ASP.NET, (Web Form, MVC, .Net Core, Nhibernate, Entity Framework, ADO.NET, Web API, WCF and WPF),, Micro services, Elastic Search, Javascript/JQuery,, HTML/CSS.

**Reports (competent):** Crystal Reports, JSReports.

**Reports (competent):** MS SQL, PostgreSQL, SQLite, MongoDB.

## EDUCATION

---

**Computer Science, Bachelor, FAST - NUCES**

Jun 2006 - Jul 2010

Digital Logic Design

Assembly Language

Data Structures

Design Patterns

Web Programming

Compiler Construction

Concurrent and Distributed Systems

High Performance Computing

Database Design

## AWARDS

---

## IASA IT Architecture Core (ITAC) – CITAF Certification, Iasa Global

Awarded on: May 2015

Anchors to the beginning of Architect position and responsibilities

## Won the GIKI SOFTCOM 08 (Programming Competition), GIKI University Pakistan

Awarded on: Apr 2008

A speed programming competition of national level

### INTERESTS

### REFERENCES

---

#### Heinrich Rust

Amir is surely missed by his team/peers and I think any company would find great benefit with the addition of Amir to their leadership and technical team. Wish you all the best Amir and hope our paths cross again.

#### Paul Fitzgerald

As a colleague Amir is friendly, personable, has an easy manner and great sense of humour. A clear communicator with a voice for radio, Amir is wise head on young shoulders.
