Work

Agoda

2021-12-13 –

Full Stack Software Engineer

Leading several teams, working on solutions based upon distributed computing to make the e-commerce scene under the global travel space alive

Highlights

- Working with teams to migrate long-running legacy systems to a newer and a better stack
- Keeping track of the learning abilities of my team so that they can progress in their respective careers and interests
- Having 1:1s to shape up the team culture and align them with essential matters at the organization

- Build a mindset and culture of quality first; Owning our stuff and converting them to quality artefacts and systems
- Help the organization envision what moving away from legacy could mean and preach the benefits within the team(s)
- Help the team understand Agility at work and take them through ceremonies; This helps the team give their best following sprints
- Making an effort around organizational values, so it lives within the team and work we do.

Strategic System International

2019-11-01 – 2021-12-10

Senior Software Engineer

Design and developed multiple major modules and provide technical support to web application as well mobile application. My responsibilities include:

Highlights

- Building micro services oriented systems that enable integration with various external systems.
- Working in an agile, scrum environment using .NET stack to design and build highly optimized solutions to be deployed at a global scale.
- Optimizing and refactoring existing modules to accommodate new functionality and enhance performance and maintainability.
- Design and develop timesheets management module based on types of systems. User can track workings hours and working experience with different clients. User can upload paper timesheets as well.
- Implementation of Elastic search to enhance the performance and visualize the data.
- Provide technical to mobile application
- Provide technical support and consultancy to other projects as well

CureMD

2017-09-01 – 2019-11-01

Software Engineer

Developed multiple major projects, as a full stack .NET developer as well as a software architect. My responsibilities include:

Highlights

- Building highly scalable and robust, service-oriented systems that enable integration of our flagship product with various external information exchange partners.
- Working in an agile, scrum environment using .NET stack to design and build highly optimized solutions to be deployed at a global scale.
- Providing technical and client support to various deployed products. Co-ordinate and plan inter and intra team activities.
- Restructure and refactor modules of existing products to accommodate new functionality and enhance performance and maintainability.

Logix Infinity

2016-06-01 – 2017-09-01

Software Engineer

Worked as a software developer, specializing in web and desktop application development, mainly using the .NET stack along with other web technologies (Angular, Ionic and JavaScript). It gave me a chance to work on an array of diverse projects, offering me a great learning experience and exposure. I've developed web-based software using ASP.NET (MVC, WEB API, .NetCore), Angular/Ionic and SQLServer.

Education

FAST - NUCES

2006-06-01 – 2010-07-01

 **Computer Science**
Bachelor

Courses

- Digital Logic Design
- Assembly Language
- Data Structures
- Design Patterns
- Web Programming
- Compiler Construction
- Concurrent and Distributed Systems
- High Performance Computing
- Database Design

Awards

IASA IT Architecture Core (ITAC) – CITAF Certification

by Iasa Global

Awarded 2015-05-01

Anchors to the beginning of Architect position and responsibilities

Won the GIKI SOFTCOM 08 (Programming Competition)

by GIKI University Pakistan

Awarded 2008-04-01

A speed programming competition of national level

Skills

Web Engineering

- Software Architecture
- Development and Troubleshooting
- Project Management & Coordination

Software Architecture

- Design-patterns
- Distributed systems
- Scalability

- Maintainability

Software Development

- Sustainability
- Portability
- Scalability
- Reasonability

Programming Languages

- C#
- C++

Web Programming

- ASP.NET
- (Web Form, MVC, .Net Core, Nhibernate, Entity Framework, ADO.NET, Web API, WCF and WPF),
- Micro services
- Elastic Search
- Javascript/JQuery,
- HTML/CSS

Reports

- Crystal Reports
- JSReports

Reports

- MS SQL
- PostgreSQL
- SQLite
- MongoDB

Languages

Urdu

Native speaker

English

Fluent

English

Fluent

Punjabi

Fluent

Interests

Home improvements & engineering

- Plumbing
- Electric-appliances
- Civil engineering

Software based home solutions

- IoT
- Home-server
- plex
- raspberry-pi
- cups
- saned

Watching documentaries

- Idiocracy
- Lord-of-the-rings
- movies
- documentaries

References

Amir is surely missed by his team/peers and I think any company would find great benefit with the addition of Amir to their leadership and technical team. Wish you all the best Amir and hope our paths cross again.

— **Heinrich Rust**

As a colleague Amir is friendly, personable, has an easy manner and great sense of humour. A clear communicator with a voice for radio, Amir is wise head on young shoulders.

— **Paul Fitzgerald**
