### About

Full Stack Developer with 5+ years of rich professional experience of building and delivering highly scalable, enterprise grade software products. I hold a Bachelor's degree in Computer Sciences from the Punjab University College of Information Technology, Lahore, Pakistan

### Experience

#### Agoda

December 2021 - Present

##### Full Stack Software Engineer

Leading several teams, working on solutions based upon distributed computing to make the e-commerce scene under the global travel space alive

Working with teams to migrate long-running legacy systems to a newer and a better stack  
Keeping track of the learning abilities of my team so that they can progress in their respective careers and interests

Having 1:1s to shape up the team culture and align them with essential matters at the organization

Build a mindset and culture of quality first; Owning our stuff and converting them to quality artefacts and systems

Help the organization envision what moving away from legacy could mean and preach the benefits within the team(s)

Help the team understand Agility at work and take them through ceremonies; This helps the team give their best following sprints

Making an effort around organizational values, so it lives within the team and work we do.

#### Strategic System International

November 2019 - December 2021

##### Senior Software Engineer

Design and developed multiple major modules and provide technical support to web application as well mobile application. My responsibilities include:

Building micro services oriented systems that enable integration with various external systems.

Working in an agile, scrum environment using .NET stack to design and build highly optimized solutions to be deployed at a global scale.

Optimizing and refactoring existing modules to accommodate new functionality and enhance performance and maintainability.

Design and develop timesheets management module based on types of systems. User can track workings hours and working experience with different clients. User can upload paper timesheets as well.

Implementation of Elastic search to enhance the performance and visualize the data.

Provide technical to mobile application

Provide technical support and consultancy to other projects as well

## **CureMD**

**September 2017 - November 2019**

### **Software Engineer**

Developed multiple major projects, as a full stack .NET developer as well as a software architect. My responsibilities include:

Building highly scalable and robust, service-oriented systems that enable integration of our flagship product with various external information exchange partners.

Working in an agile, scrum environment using .NET stack to design and build highly optimized solutions to be deployed at a global scale.

Providing technical and client support to various deployed products. Co-ordinate and plan inter and intra team activities.

Restructure and refactor modules of existing products to accommodate new functionality and enhance performance and maintainability.

## **Logix Infinity**

**June 2016 - September 2017**

### **Software Engineer**

Worked as a software developer, specializing in web and desktop application development, mainly using the .NET stack along with other web technologies (Angular, Ionic and JavaScript). It gave me a chance to work on an array of diverse projects, offering me a great learning experience and exposure. I've developed web-based software using ASP.NET (MVC, WEB API, .NetCore), Angular/Ionic and SQLServer.

## **Education**

### **PUCIT**

**2012 - 2016**

Bachelor

**Computer Science**

### **Science College Hasilpur**

**2010 - 2012**

Intermediate

**Fsc – Pre-Engineering / Intermediate**

## **Awards**

1 May 2020

Exam 70 - 483 Programming in C#

Microsoft

1 December 2021

Secure Coding

Secure Code Warrior

## Skills

### Web Engineering

*Expert*

Software Architecture

Development and Troubleshooting

Project Management & Coordination

### Software Architecture

*Advanced*

Design-patterns

Distributed systems

Scalability

Maintainability

### Software Development

*Proficient*

Sustainability

Portability

Scalability

Reasonability

### Programming Languages

*Advanced*

C#

C++

### Web Programming

*Proficient*

ASP.NET

(Web Form, MVC, .Net Core, Nhibernate, Entity Framework, ADO.NET, Web API, WCF and WPF),

Micro services

Elastic Search

Javascript/JQuery,

HTML/CSS

### Reports

*Competent*

Crystal Reports

JSReports

### Reports

*Competent*

MS SQL

PostgreSQL

SQLite

MongoDB

## Languages

Urdu

English

Punjabi

*Native speaker*

*Fluent*

*Fluent*

## Interests

Home improvements & engineering

Plumbing

Electric-appliances

Civil engineering

## Software based home solutions

IoT

Home-server

plex

raspberry-pi

cups

saned

## Watching documentaries

Idiocracy

Lord-of-the-rings

movies

documentaries

## References

“ Amir is surely missed by his team/peers and I think any company would find great benefit with the addition of Amir to their leadership and technical team. Wish you all the best Amir and hope our paths cross again. ”

Heinrich Rust

“ As a colleague Amir is friendly, personable, has an easy manner and great sense of humour. A clear communicator with a voice for radio, Amir is wise head on young shoulders. ”

Paul Fitzgerald
