PROFESSIONAL SKILLS SUMMARY

Web Development (Expert): HTML, Javascript

Software Architecture (Advanced): Design-patterns, Distributed systems, Scalability, Maintainability

Software Development (Proficient): Sustainability, Portability, Scalability, Reasonability

Problem Solving (Advanced): Competitive Programming, Abstract

Draft documentation (Proficient): docsify, Github, MARP, Joplin, MermaidJS, FormsIO

Communication (Competent): face-2-face, emails, presentations, conference, buy-in talks, negotiations, layman conversions, 1:1s

WORK EXPERIENCE

2021-12-13 TO PRESENT

Full Stack Software Engineer at Agoda

Leading several teams, working on solutions based upon distributed computing to make the e-commerce scene under the global travel space alive

- Working with teams to migrate long-running legacy systems to a newer and a better stack
- Keeping track of the learning abilities of my team so that they can progress in their respective careers and interests
- Having 1:1s to shape up the team culture and align them with essential matters at the organization
- Build a mindset and culture of quality first; Owning our stuff and converting them to quality artefacts and systems
- Help the organization envision what moving away from legacy could mean and preach the benefits within the team(s)
- Help the team understand Agility at work and take them through ceremonies; This helps the team give their best following sprints
- Making an effort around organizational values, so it lives within the team and work we do.

2019-11-01 TO 2021-12-10

Senior Software Engineer at Strategic System International

Design and developed multiple major modules and provide technical support to web application as well mobile application. My responsibilities include:

- Building micro services oriented systems that enable integration with various external systems.
- Working in an agile, scrum environment using .NET stack to design and build highly optimized solutions to be deployed at a global scale.
- Optimizing and refactoring existing modules to accommodate new functionality and enhance performance and maintainability.
- Design and develop timesheets management module based on types of systems. User can track workings hours and working experience with different clients. User can upload paper timesheets as well.
- Implementation of Elastic search to enhance the performance and visualize the data.
- Provide technical to mobile application
- Provide technical support and consultancy to other projects as well

2017-09-01 TO 2019-11-01

Software Engineer at CureMD

Developed multiple major projects, as a full stack .NET developer as well as a software architect. My responsibilities include:

- Building highly scalable and robust, service-oriented systems that enable integration of our flagship product with various external information exchange partners.
- Working in an agile, scrum environment using .NET stack to design and build highly optimized solutions to be deployed at a global scale.
- Providing technical and client support to various deployed products. Co-ordinate and plan inter and intra team activities.
- Restructure and refactor modules of existing products to accommodate new functionality and enhance performance and maintainability.

2016-06-01 TO 2017-09-01

Software Engineer at Logix Infinity

Worked as a software developer, specializing in web and desktop application development, mainly using the .NET stack along with other web technologies (Angular, Ionic and JavaScript). It gave me a chance to work on an array of diverse projects, offering me a great learning experience and exposure. I've developed web-based software using ASP.NET (MVC, WEB API, .NetCore), Angular/Ionic and SQLServer.

EDUCATION

2006-06-01 TO 2010-07-01

FAST - NUCES

- Bachelor: *Computer Science*

LANGUAGES

Urdu

Native speaker

English

Fluent

AWARDS

IASA IT ARCHITECTURE CORE
(ITAC) – CITAF
CERTIFICATION

2015-05-01

Iasa Global

- Anchors to the beginning of Architect position and responsibilities

WON THE GIKI SOFTCOM 08
(PROGRAMMING COMPETITION)

2008-04-01

GIKI University Pakistan

- A speed programming competition of national level
