EXPERIENCE

Agoda

Full Stack Software Engineer Dec 2021 - Present

Leading several teams, working on solutions based upon distributed computing to make the e-commerce scene under the global travel space alive

- Working with teams to migrate long-running legacy systems to a newer and a better stack
- Keeping track of the learning abilities of my team so that they can progress in their respective careers and interests
- Having 1:1s to shape up the team culture and align them with essential matters at the organization
- Build a mindset and culture of quality first; Owning our stuff and converting them to quality artefacts and systems
- Help the organization envision what moving away from legacy could mean and preach the benefits within the team(s)
- Help the team understand Agility at work and take them through ceremonies; This helps the team give their best following sprints
- Making an effort around organizational values, so it lives within the team and work we do.

Strategic System International

Senior Software Engineer Nov 2019 - Dec 2021

Provided leadership across the engineering organization for the aspects of hiring, processes, architecture, grooming individuals and solving complex problems

- Introduced a hiring process and its custodianship (aka The Hiring Squad!)
 - Enabled the eco-system of documentation keeping and taking tools along with helping the team to use them day-in-day-out
 - Conducted 1:1s with team members to keep their inspirations and motivations up
 - Helped to bootstrap various products for a quick test with the upcoming consumer markets for the organization
 - Been a part of the team and the solution for complex problems like NotificationCenter, Auth provider selection and payment gateway solution
 - Created and vocalized a process of hiring interns and turning them into fellow beings
 - Led and represented the engineering department of the organization
 - Proactively participated in converting an old-school organization to an organization with agility
 - Helped and created career progression for various individuals in the organization
 - Proactively involved me with HR to discuss and demystify challenging problems
 - Introduced and have been the most potent catalyst in changing our product platform to be the cross-platform product
 - Enabled ways to bring in new dimensions to the product evolution, which were held back because of the absence of engineering leadership
 - Focus on quality deliverables -- Provided guidance to bring in an appropriate SDLC
 - I got involved and got my hands dirty with architecture decisions at various organizational levels

CureMD

Software Engineer Sep 2017 - Nov 2019

SEEK is a diverse group of companies that have a unified purpose to help people live more fulfilling and productive working lives and help organisations succeed.

- Contributed to SEEKs overall product & technology strategy and aligned systems with that strategy
 - Ensured that systems were fit for purpose, well-architected and followed current SEEK development practices
 - Maintained platform health by ensuring that our systems are secure, reliable, resilient and cost-effective
 - Drove customer focus to ensure that we deliver excellent outcomes for our customers
 - Commenced and maintained a high performing team culture that values collaboration, learning and continual improvement
 - Acted as an enabler; Grew my team's technical skills and leadership capabilities through coaching and mentoring. This involves having 1:1s with my teammates
 - Lead by example, Which required me to get my hands dirty when needed
 - Unblocked the team with whatever it took, having complete ownership of maintaining healthy teams
 - Celebrated successes and learnt from the failures; propagated the culture through the teams and exemplified it for the rest of the organization
 - Paired with the Principal Engineer of the team to understand the climate and the team's problems
 - Participated in and retro-ed the core hiring process through a centralized hiring squad
 - Helped the org to move fast to the ecosystem of global products; Away from the local products which we have been dealing with for the past 25+ years
-

Logix Infinity

Software Engineer Jun 2016 - Sep 2017

SEEK is a diverse group of companies that have a unified purpose to help people live more fulfilling and productive working lives and help organisations succeed.

- Been the catalyst for transforming the organization
- Performed the duties as the JavaScript coach for the organization
- Advocated for and implemented software best practices
- Have been the communicator for various teams to maintain their health; sometimes preached the organization's values
- Participated as a core in hiring new and experienced talents
- Propagated automation as a culture rather than an option
- Moved legacy code and data to cloud via lift & shift, greenfield and brownfield methodologies
- Performed the duties of deciding and validating sensible defaults for the organization
- Pushed cloud-first approach in the org, living in an environment of Infra ops
- With the help of fellow architects, I invested time in a flourishing framework of single identity throughout SEEK systems; We did this through educating, enabling, and supporting the needful tools for the teams
- Created several SDKs for a single identity solution within Seek with complete automation and tests. Later helped teams adopt them into various systems
