👤 ABOUT

Full Stack Developer with 5+ years of rich professional experience of building and delivering highly scalable, enterprise grade software products. I hold a Bachelor's degree in Computer Sciences from the Punjab University College of Information Technology, Lahore, Pakistan

🏢 EXPERIENCE

Full Stack Software Engineer, Agoda   #

December 2021 — Present 🕐 7 months

Leading several teams, working on solutions based upon distributed computing to make the e-commerce scene under the global travel space alive

- Working with teams to migrate long-running legacy systems to a newer and a better stack
- Keeping track of the learning abilities of my team so that they can progress in their respective careers and interests
- Having 1:1s to shape up the team culture and align them with essential matters at the organization

- Build a mindset and culture of quality first; Owning our stuff and converting them to quality artefacts and systems
- Help the organization envision what moving away from legacy could mean and preach the benefits within the team(s)
- Help the team understand Agility at work and take them through ceremonies; This helps the team give their best following sprints
- Making an effort around organizational values, so it lives within the team and work we do.

Senior Software Engineer, Strategic System International

November 2019 — December 2021 ⊙ 2 years

Design and developed multiple major modules and provide technical support to web application as well mobile application. My responsibilities include:

- Building micro services oriented systems that enable integration with various external systems.
- Working in an agile, scrum environment using .NET stack to design and build highly optimized solutions to be deployed at a global scale.
- Optimizing and refactoring existing modules to accommodate new functionality and enhance performance and maintainability.
- Design and develop timesheets management module based on types of systems. User can track workings hours and working experience with different clients. User can upload paper timesheets as well.
- Implementation of Elastic search to enhance the performance and visualize the data.
- Provide technical to mobile application
- Provide technical support and consultancy to other projects as well

Software Engineer, CureMD

September 2017 — November 2019 ⊙ 2 years

Developed multiple major projects, as a full stack .NET developer as well as a software architect. My responsibilities include:

- Building highly scalable and robust, service-oriented systems that enable integration of our flagship product with various external information exchange partners.
- Working in an agile, scrum environment using .NET stack to design and build highly optimized solutions to be deployed at a global scale.
- Providing technical and client support to various deployed products. Co-ordinate and plan inter and intra team activities.
- Restructure and refactor modules of existing products to accommodate new functionality and enhance performance and maintainability.

Software Engineer, Logix Infinity

June 2016 — September 2017 ⊙ a year

Worked as a software developer, specializing in web and desktop application development, mainly using the .NET stack along with other web technologies (Angular, Ionic and JavaScript). It gave me a chance to work on an array of diverse projects, offering me a great learning experience and

exposure. I've developed web-based software using ASP.NET (MVC, WEB API, .NetCore), Angular/Ionic and SQLServer.

🎓 EDUCATION

Computer Science, Bachelor

2006 — 2010 🕐 4 years

FAST - NUCES

Digital Logic Design | Assembly Language | Data Structures | Design Patterns
Web Programming | Compiler Construction | Concurrent and Distributed Systems
High Performance Computing | Database Design

</> SKILLS

Web Development — *Expert*

HTML | Javascript

Software Architecture — *Advanced*

Design-patterns | Distributed systems | Scalability | Maintainability

Software Development — *Proficient*

Sustainability | Portability | Scalability | Reasonability

Problem Solving — *Advanced*

CompetitiveProgramming | Abstract

Draft documentation — *Proficient*

docsify | Github | MARP | Joplin | MermaidJS | FormsIO

Communication — *Competent*

face-2-face | emails | presentations | conference | buy-in talks | negotiations
layman conversions | 1:1s

🏆 AWARDS

IASA IT Architecture Core (ITAC) – CITAF Certification, Iasa Global #

Awarded on: May 01, 2015

Anchors to the beginning of Architect position and responsibilities

---

Won the GIKI SOFTCOM 08 (Programming Competition), GIKI University Pakistan #

Awarded on: Apr 01, 2008

A speed programming competition of national level

👍 REFERENCES

> Amir is surely missed by his team/peers and I think any company would find great #
> benefit with the addition of Amir to their leadership and technical team. Wish you all the
> best Amir and hope our paths cross again.
>
> — Heinrich Rust

As a colleague Amir is friendly, personable, has an easy manner and great sense of humour. A clear communicator with a voice for radio, Amir is wise head on young shoulders.

— Paul Fitzgerald
