Professional Skills Summary

Web Engineering (Expert): Software Architecture, Development and Troubleshooting, Project Management & Coordination

Software Architecture (Advanced): Design-patterns, Distributed systems, Scalability, Maintainability

Software Development (Proficient): Sustainability, Portability, Scalability, Reasonability

Programming Languages (Advanced): C#, C++

Web Programming (Proficient): ASP.NET, (Web Form, MVC, .Net Core, Nhibernate, Entity Framework, ADO.NET, Web API, WCF and WPF),, Micro services, Elastic Search, Javascript/JQuery,, HTML/CSS

Reports (Competent): Crystal Reports, JSReports

Reports (Competent): MS SQL, PostgreSQL, SQLLite, MongoDB

Work Experience

2021-12-13 to Present

Full Stack Software Engineer at **Agoda**

Leading several teams, working on solutions based upon distributed computing to make the e-commerce scene under the global travel space alive

- Working with teams to migrate long-running legacy systems to a newer and a better stack
- Keeping track of the learning abilities of my team so that they can progress in their respective careers and interests
- Having 1:1s to shape up the team culture and align them with essential matters at the organization
- Build a mindset and culture of quality first; Owning our stuff and converting them to quality artefacts and systems
- Help the organization envision what moving away from legacy could mean and preach the benefits within the team(s)
- Help the team understand Agility at work and take them through ceremonies; This helps the team give their best following sprints
- Making an effort around organizational values, so it lives within the team and work we do.

Senior Software Engineer at **Strategic System International**

Design and developed multiple major modules and provide technical support to web application as well mobile application. My responsibilities include:

- Building micro services oriented systems that enable integration with various external systems.
- Working in an agile, scrum environment using .NET stack to design and build highly optimized solutions to be deployed at a global scale.
- Optimizing and refactoring existing modules to accommodate new functionality and enhance performance and maintainability.
- Design and develop timesheets management module based on types of systems. User can track workings hours and working experience with different clients. User can upload paper timesheets as well.
- Implementation of Elastic search to enhance the performance and visualize the data.
- Provide technical to mobile application
- Provide technical support and consultancy to other projects as well

Software Engineer at **CureMD**

Developed multiple major projects, as a full stack .NET developer as well as a software architect. My responsibilities include:

- Building highly scalable and robust, service-oriented systems that enable integration of our flagship product with various external information exchange partners.
- Working in an agile, scrum environment using .NET stack to design and build highly optimized solutions to be deployed at a global scale.
- Providing technical and client support to various deployed products. Co-ordinate and plan inter and intra team activities.
- Restructure and refactor modules of existing products to accommodate new functionality and enhance performance and maintainability.

Software Engineer at **Logix Infinity**

Worked as a software developer, specializing in web and desktop application development, mainly using the .NET stack along with other web technologies (Angular, Ionic and JavaScript). It gave me a chance to work on an array of diverse projects, offering me a great learning experience and exposure. I've developed web-based software using ASP.NET (MVC, WEB API, .NetCore), Angular/Ionic and SQLServer.

Education

2006-06-01 to 2010-07-01

FAST - NUCES

- Bachelor: *Computer Science*

Languages

Urdu	Native speaker
English	Fluent
English	Fluent
Punjabi	Fluent

Awards

IASA IT Architecture Core (ITAC) – CITAF Certification

2015-05-01

Iasa Global

- Anchors to the beginning of Architect position and responsibilities

Won the GIKI SOFTCOM 08 (Programming Competition)

2008-04-01

GIKI University Pakistan

- A speed programming competition of national level
